

CTP TECNOLOGIE DI PROCESSO SPA

INTEGRATED COMPETENCES FOR PHARMACEUTICAL INDUSTRY

Founded in 1990, **CTP Tecnologie di Processo S.p.A.** is one of greatest consulting group (**CTP SYSTEM**) in Italy and Europe for pharmaceutical, chemical and healthcare fields. Besides the leader company, the group is constituted by the Italian subsidiaries **CTP Lab**, **CTP Chem** and **Rigel Life Sciences** and the foreign companies **CTP Budapest**, **CTP Maghreb** and **Latino America Consultores**. At present, it engages about 160 people with high professional profiles and various skills (engineers, chemicals, biologists, computer scientists, etc.).

Standard services range over from project management to qualification and validation, from support for qualified systems construction to IT systems consultancy and validation, from preventive maintenance to regulatory consultancy, as well as microbiological and chemical analyses thanks to certified laboratories and qualified training. **CTP SYSTEM** is also a point of reference for projecting and managing health departments for radiopharmaceutical preparations (Nuclear Medicine) and cell factories (Advanced Therapies).

With a new strategy of international expansion, **CTP SYSTEM** proposes also audits for API manufacturers in Italy and abroad, Business Development and Licensing, raw materials management (e.g. re-testing) and technology transfer, based on Risk Analysis & Assessment.

The 20 years experience, integrated competence and constant attention to the quality, are the principal force of **CTP SYSTEM**, a real partner for developing any project, from devising to production.

Through the **GxP Training** brand, **CTP SYSTEM** integrates its services with a complete formative proposal based on Clients needs, ensuring a service in accordance with qualitative and normative requirements of European and extra-European authorities. **GxP Training** organizes three kinds of Courses: multi-user, personalized for companies and basic training.
