

Neri Labels srl

Neri Labels srl.. Quality labelling. Global Quality, Guarantee for our Customers"

Only this could be our slogan, which characterizes our Company, the " mover" that since 1977 has allowed to made a name for itself in the production of labels and printings for a very exacting sector as the Pharmaceutical is and which till today represents the 80% of the whole production.

Pharmintech 2010 will be for us the opportunity to present to all our visitors our Know-out, our professionalism and the attendance that our staff can offer .

Neri Labels srl projects and carries out graphical plates based on technical specifications supplied by the Customer, supported by the most innovative technology and equipment, in conformity to the requests of the Pharmaceutical and Alimentary Industry (CGMP, Uni En Iso 15378).

We're able to print Flexographic, Serigraphic, Typographic and Heat transfer by the means of sophisticated technology, with batches traceability from raw material to finished product.

Neri Labels' aim is to guarantee the global Quality of its products and for this purpose we take care of the following: personnel training, controlled and traced product management in order to avoid possible mix-up, all what concerning the product contamination, system and production flow up-dating , for being more and more sensitive to the market requirements.

Recent innovation is the collaboration with a young software house, as for purchase orders, which, by RFid systems, is able to follow the information of the produced batch up to the end user (documentation and monitoring of the temperature). The strategic advantages of this kind of technology are to guarantee the traceability of the supplied goods, to validate a system that offers guarantee of transparency, identifying of any responsibilities, anticounterfeiting of the products, costs reduction (time consuming), due to the use of human resources in the control, small dimensions, lowest costs for the installation and management of the system, reduction of printing errors occurred in the data transcription.

We look forward to meeting you and you are welcome to visit our stand : pavilion 10 ,stand D52
