

PGS SRL

PGS PRESENTATION

PGS is a company born from a joint venture among three major partners (Piemme, Glatt Ingenieurtechnik and Soitra) that have always engaged in engineering services for Pharmaceutical, Chemical and Food industries. The company specializes in consulting, engineering, construction and validation of systems. PGS can take advantage of a long and established experience with the design and implementation of pharmaceutical plants around the world. A team of specialists, made specially according to customer needs, is able to provide a complete service for the construction of turnkey plants. Starting from Concept Design up to complete construction; start-up, validation and training of personnel involved. All this, with the agility of a young company that is able to provide an accurate service, competitive and fast.
