

PHABA SRL

WHAT IS PHABA, WHAT WE DO MANUFACTURE , WHAT IS OUR PRODUCTION PHILOSOPHY

We are a certified UNI EN ISO 9001:2000 company operating mainly within the pharmaceutical primary packaging supplies. Our commitment remains to be a full operational supplier/partner by putting our full experience and knowledge at the customer disposal, achieved in over 35 years in the manufacturing field.

By the support of several moulding injection and blowing electronic controlled machines of latest generation, and with a choice of over 420 moulds of our property and several patents, we are able to supply:

Polypropylene threaded cap (adjustable pitch) and threaded cap child proof tamper evident, which may be provided with PE gaskets and torque activated innerseals, insert droppers and dropper assemblies within the standard sizes provided with natural rubber/thermorubber bulbs, PP/aluminium cap and plastic/glass canulas which may be provided with additional print graduated scales and also enveloped by single PELD dust free bag, graduated caps which may be fitted over plastic or aluminium caps, graduated spoons, both sealed upon request by single plastic dust free envelop, adult and child enemas and micro enemas provided with canulas and downflow check gaskets, dehydrating closure caps able to preserve those active extremely perishable principles, vitamin pots, feeler pins, bottles PEHD/PETG, pots, jars for ointment, vaginal canulas tablets/cream and besides automatic sweetener tablets dispenser.

The main aim of our staff is full customer satisfaction, quality and reliability. Moreover we are improving every year both energy saving and environmental aspect; in fact we are starting with using new biodegradable raw material in order to introduce eco-friendly products, involving also the purchase dept. of pharmaceutical industries.
