

ROMACO SRL

Pharmaceutical expertise

ROMACO S.r.l. since forty years has been a leader in projecting and manufacturing automatic machines and systems for pharmaceutical and cosmetic industrial field.

The steady technical innovation applied to its products, allows Romaco to keep up with the continuous market development. Since the 31st August 2001, Romaco Srl is part of the NYSE listed Company Robbins & Myers, Inc. based in Dayton, Ohio, Multinational Company which constitutes the major platform of its parent's pharmaceutical business segment.

Combining its experience with the Group synergies, Romaco S.r.l. has developed its productive and technological know-how. Romaco S.r.l. consists of 3 specialized brands: Macofar, Promatic, and Unipac. Thanks to its great reputation recognized a global expert supplier for dosing of the aseptic powders, Romaco Macofar offers Aseptic Lines for powder and liquid lines including vials and ampoules washing machines, sterilization tunnels, filling and capping machines.

The cartoning and case packer machines Promatic are the perfect completing for the aseptic lines. Flexibility and ergonomics are the fundamental design principles in evidence right across the product range. Romaco S.r.l. will be present at Pharmintech 2010 in Bologna, where will exhibit the continuous motion cartoning PC4400, which represents the most developed technological "step" available on the market, thanks to its balcony design, carton pick-up and positive opening system, high level of operator comfort and safety; the aseptic liquid dosing machine VF24, ideal solution for vials filling with liquid parenteral drugs in advanced aseptic conditions and for liquid or lyophilized products, machine with compact, modular, versatile and through wall design; tube filling machine Unipac U2060 in line with the well-known Promatic cartoner P91
